

STS Inks – V8 DTF Film

100 µm Thickness | Double-Sided | Instant Hot & Cold Peel

Layer Structure

Layer	Description
Anti-Static Layer	Reduces static buildup during printing and handling
Anti-Slip Layer	Ensures smooth feeding through printer and shaker
PET Layer	Core structure for film stability
2 Ink Absorbing / Color Layers	Designed for vivid colors and consistent transfers
2 Instant Hot Release Layers	Enable both hot and cold peel options

Advantages

Ink savings on both white and color
Consistent color quality
Improved solid color consistency
Larger color gamut
Improved hand feel
Better substrate handling through printer, shaker, and cutter
