

# Chemical Consultants INCORPORATED

**TOP BOND MIST - California Version**

**Screen Printing Adhesive - Aerosol**

## GENERAL DESCRIPTION

This specialty adhesive is formulated to combine high tack and quick adhesion in a repositionable high performance spray for the screen printing of T-Shirt fabrics. The unique chemistry gives a near permanent open time - it remains tacky long after it is applied. The dispersion of particles in a mist spray combined with fast tack is ideal for use as a pallet adhesive during silk screen printing applications.

## ADVANTAGES

- Lower VOC
- Pressure Sensitive
- Excellent hold for a variety of materials
- Flashes quickly to eliminate transfer
- Not affected by Flash-Cure Station
- Repositionable
- Quick Tack
- Non-Transferable
- Contains no Ozone Depleting Chemicals
- No Over Spray

### **Quick Tip:**

To avoid clogging, after spraying, turn can upside down and spray for 2 seconds.

Dried / cured adhesive can be cleaned with CCI's AR-20 (Adhesive Remover)

## **Packaging**

**12 oz. Can**

**12 x 1 Can Case**

## APPLICATION:

Check tip direction before spraying. Apply a light even coat, from a distance of 6" to 8" to pallet and allow to dry. Do not concentrate in one spot. Position fabric on coated area and proceed with screening process.
